

Early Childhood Workforce Index 2016 ALASKA

IN ALASKA, there are 65,244 children age birth through five years; 59 percent of these children live in households where all available parents are currently working, and 18 percent of all Alaska children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 3,110 members of the early childhood teaching workforce provide services to children in Alaska.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	63rd	\$32.13
Preschool teacher	19th	\$17.51
Child care worker	5th	\$11.80

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$11.80, a **2% increase since 2010**.
- For preschool teachers, the median wage was \$17.51, a **10% increase since 2010**.
