

Early Childhood Workforce Index 2016

MAINE

IN MAINE, there are 78,336 children age birth through five years; 69 percent of these children live in households where all available parents are currently working, and 24 percent of all Maine children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 4,180 members of the early childhood teaching workforce provide services to children in Maine.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	64th	\$24.02
Preschool teacher	22nd	\$14.24
Child care worker	5th	\$10.37

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$10.37, a **7% decrease since 2010**.
- For preschool teachers, the median wage was \$14.24. (Data unavailable for 2010.)
