

Early Childhood Workforce Index 2016

MARYLAND

IN MARYLAND, there are 443,609 children age birth through five years; 72 percent of these children live in households where all available parents are currently working, and 18 percent of all Maryland children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 18,430 members of the early childhood teaching workforce provide services to children in Maryland.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	60th	\$26.88
Preschool teacher	13th	\$13.45
Child care worker	5th	\$10.64

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$10.64, **a 5% decrease since 2010.**
- For preschool teachers, the median wage was \$13.45, **a 1% decrease since 2010.**

Use of Public Income Supports (EITC, Medicaid, Food Stamps, TANF)

- Child care worker families' participation in one or more public income support programs: **40%**
- Cost of child care worker families' participation in public income support programs: **\$31.3 million**

Early Childhood Workforce Policies

Qualifications	BA for all pre-K teachers?	Yes
	At least CDA or vocational training for licensed providers?	No
