

Early Childhood Workforce Index 2016 NEBRASKA

IN NEBRASKA, there are 156,575 children age birth through five years; 74 percent of these children live in households where all available parents are currently working, and 31 percent of all Nebraska children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 7,910 members of the early childhood teaching workforce provide services to children in Nebraska.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	61st	\$23.03
Preschool teacher	29th	\$15.31
Child care worker	3rd	\$9.43

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$9.43, **a 2% increase since 2010.**
- For preschool teachers, the median wage was \$15.31, **a 29% increase since 2010.**
