

Early Childhood Workforce Index 2016 NEW YORK

IN NEW YORK, there are 1,408,752 children age birth through five years; 65 percent of these children live in households where all available parents are currently working, and 24 percent of all New York children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 77,920 members of the early childhood teaching workforce provide services to children in New York.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	61st	\$28.90
Preschool teacher	18th	\$14.95
Child care worker	8th	\$12.24

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$12.24, a **3% decrease since 2010**.
- For preschool teachers, the median wage was \$14.95, a **12% decrease since 2010**.

Use of Public Income Supports (EITC, Medicaid, Food Stamps, TANF)

- Child care worker families' participation in one or more public income support programs: **59%**
- Cost of child care worker families' participation in public income support programs: **\$192.1 million**
