

Early Childhood Workforce Index 2016 OHIO

IN OHIO, there are 832,509 children age birth through five years; 69 percent of these children live in households where all available parents are currently working, and 27 percent of all Ohio children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 32,290 members of the early childhood teaching workforce provide services to children in Ohio.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	64th	\$25.23
Preschool teacher	10th	\$11.39
Child care worker	4th	\$9.55

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$9.55, **an 11% decrease since 2010.**
- For preschool teachers, the median wage was \$11.39, **a 1% increase since 2010.**

Use of Public Income Supports (EITC, Medicaid, Food Stamps, TANF)

- Child care worker families' participation in one or more public income support programs: **37%**
- Cost of child care worker families' participation in public income support programs: **\$40.1 million**
