

Early Childhood Workforce Index 2016 SOUTH DAKOTA

IN SOUTH DAKOTA, there are 72,510 children age birth through five years, and 26 percent of all South Dakota children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 3,620 members of the early childhood teaching workforce provide services to children in South Dakota.

Occupation	Percentile	Median wage
