

# Early Childhood Workforce Index 2018 KANSAS

234,248  
Children age 0-5

9,050\*  
Members of the  
early childhood  
teaching workforce

**IN KANSAS**, 70 percent of children live in households where all available parents are currently working, and 30 percent of all Kansas children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages.

At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages. More than 9,050 members of the early childhood teaching workforce provide services to children in Kansas.

Occupation	Median wage
Child care worker	\$9.25
Preschool teacher	\$12.94
Center director	\$19.50
Kindergarten teacher	\$26.91
Elementary teacher	\$27.73
All workers	\$16.90

## Earnings by Occupation

- In 2017 the median wage for child care workers was \$9.25, **a 1% decrease since 2015.**
- For preschool teachers the median wage was \$12.94, **a 6% increase since 2015.**
- For preschool or child care center directors, the median wage was \$19.50, **a 1% increase since 2015.**

\*Total includes the following occupations as defined by the U.S. Bureau of Labor Statistics Occupational Employment Statistics (OES): "child care workers," "preschool teachers, excluding special education," "preschool teachers, special education," "education administrators: preschool/child care center programs". These data do not include the self-employed, although home-based child care assistants, who are employees, are likely included in the "child care worker" category. Due to the limited data available across states in the OES, state-based surveys or registries may provide more comprehensive estimates of the ECE workforce.
