

Early Childhood Workforce Index 2016

INDIANA

IN INDIANA, there are 505,090 children age birth through five years; 68 percent of these children live in households where all available parents are currently working, and 30 percent of all Indiana children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 14,850 members of the early childhood teaching workforce provide services to children in Indiana.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	57th	\$21.62
Preschool teacher	13th	\$11.79
Child care worker	4th	\$9.36

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$9.36, **a 1% decrease since 2010.**
- For preschool teachers, the median wage was \$11.79, **a 3% decrease since 2010.**
