# GUIDE TO INDICATORS

### **State Context**

State Context Indicators	Data Sources	Notes
Total child population under age 6	Kids Count Data Center – Child population, by single age, 2016 <sup>1</sup>	Totals calculated by CSCCE.
% of children under age 6 with all available parents in the labor force	Kids Count Data Center – Children under age 6 with all available parents in the labor force, 2016 <sup>2</sup>	The share of children under age 6 whose resident parents are in the civilian labor force.
% of children under age 6 in low-income working families	Kids Count Data Center – Children in low-income working families, by age group, 2016 <sup>3</sup>	The share of children under age 6 living in own families that meet two criteria: 1) the family income is less than twice the federal poverty level; 2) at least one parent works 50 or more weeks during the previous year.
Number of early childhood employees	Occupational Employment Statistics, 2017 <sup>4</sup>	Total includes the following occupations as defined by the Standard Occupational Classification of the U.S. Bureau of Labor Statistics: "child care workers," "preschool teachers, excluding special education," "preschool teachers, special education," "education administrators: preschool/ child care center programs." These data do not include the self-employed, although home-based child care assistants, who are employees, are likely included in the "child care worker" category. Due to the limited data available across states in the OES survey, state-based surveys or registries may provide more comprehensive estimates of the ECE workforce.

## **Earnings & Economic Security**

Earnings & Economic Security Indicators	Data Sources	Notes
Median wage, 2015, all occupations (adjusted for inflation)	Occupational Employment Statistics, 2015 <sup>5</sup>	Figures for 2015 were adjusted for inflation using the CPI Inflation Calculator from the Bureau of Labor Statistics.
Median wage, 2017, all occupations	Occupational Employment Statistics, 2017 <sup>6</sup>	
% change in median wage, all occupations, 2015 vs. 2017	Occupational Employment Statistics, 2017 <sup>7</sup>	Figures for 2015 were adjusted for inflation using the CPI Inflation Calculator from the Bureau of Labor Statistics.
Public income support and health care program participation rates	American Community Survey, <sup>8</sup> Current Population Survey, <sup>9</sup> and program administration data	Participation rate in public income support and health care programs (Earned Income Tax Credit, Medicaid/Children's Health Insurance Program, Food Stamps, Temporary Assistance for Needy Families) for child care workers and their families. Figures available for select states in which there was a sufficient sample size (1,000 year-round child care workers or more).

Inclusive across settings?	Licensed+	7			State registry requires participation for directors and teaching staff in licensed settings and one or more additional settings (public pre-K programs, Head Start, and/or license-exempt child care); OR state survey samples all licensed settings and one or more additional settings (public pre-K programs, Head Start, and/or license-exempt child care).				
	All licensed settings	5	_		State registry requires participation for directors and teaching staff in licensed settings; OR state's survey samples all licensed settings.				
	All other: Defined, Voluntary, Not applicable	0	7	CSCCE scan of state agency websites; CSCCE survey of state representatives, 2018	States that do not fulfill the criteria of either the "licensed" or "licensed+" categories receive no points, in order to convey the importance of collecting data across the ECE workforce, regardless of setting or program funding.  In practice, these are states that do not have one of these data collection mechanisms; states that have workforce registries with voluntary rather than required participation for the "licensed" or "licensed+" settings described in the text; or states with either workforce registries or surveys that include some defined sub-set of the ECE workforce (e.g., registries that require membership for all early educators participating in state-funded professional development initiatives or surveys of public pre-K teachers).

Pre-K per-child spending as % of K-12: Greater than 50%?	Yes/No		6	NIEER State of Preschool Yearbook, 2017 <sup>14</sup>	State per-child spending on pre-K is more than 50% of state per-child spending on K-12. The <i>NIEER Yearbooks</i> are the most comprehensive source on pre-K spending by state but may underestimate sources of federal and local funding. Furthermore, they do not include special education funding, which may represent a not-insignificant proportion of total K-12 spending, depending on the state. However, there is no recent state-by-state data on K-12 special education funding, which could be used to adjust these totals to more adequately assess differences in pre-K and K-12 spending, excluding special education funding.				
State reports extra CCDBG spending?	Yes/No		Yes/No		Yes/No		6	Communication with <u>Center for</u> <u>Law and Social</u> <u>Policy</u> , 2018 <sup>15</sup>	State reported spending additional matching or Maintenance of Effort (MOE) funds for the federal Child Care Development Block Grant.
