Members of the early childhood teaching workforce

Early educators are engaged in incredibly difficult and complex work that has been recognized as essential to children’s learning and development, supportive for families, and foundational to the economy. In the best of times, educators do this work in conditions that undermine their well-being, and the COVID-19 pandemic has only deepened the harm caused to this workforce, nearly all of whom are women. Adequate public investment and state policies that appropriately prepare, support, and compensate the early education workforce can remedy these dire conditions by establishing systems that benefit early educators and the children they care for and teach.

Occupation	Median Wage
Child care worker	\$12.01
Preschool teacher	\$13.80
Center director	\$24.32
Kindergarten teacher	\$46.76
Elementary teacher	\$43.45
All U.S. occupations	\$21.24

Earnings by Occupation

- ▶ In 2019, the median wage for child care workers was \$12.01, a **3% decrease since 2017**.
- ▶ For preschool teachers, the median wage was \$13.80, a **9% decrease since 2017**.
- ▶ For preschool or child care center directors, the median wage was \$24.32, a **15% decrease since 2017**.

Early educators pay a penalty for working with younger children.

Rhode Island early educators with a bachelor’s degree are paid 31.1 percent less than their colleagues in the K-8 system. The poverty rate for early educators in Rhode Island is 26 percent, much higher than for Rhode Island workers in general (10.2 percent) and 11 times as high as for K-8 teachers (2.4 percent).**

	Refundable child care tax credit?	No
Health & Well-Being Supports: Making Headway	Paid sick days law?	Yes
	Paid family leave law?	Yes
	Expanded Medicaid eligibility?	Yes

Notes

*Early educators work in public- and private-sector homes, centers, and schools. This estimate includes the following occupations as defined by the U.S. Bureau of Labor Occupational Employment Statistics: “child care workers,” “preschool teachers, excluding special education,” “preschool teachers, special education,” “education administrators: preschool/child care center programs.” These data do not include the self-employed, although home-based child care assistants, who are employees, are likely included in the “child care worker” category. This estimate is from 2019 and does not reflect employment changes as a result of the pandemic. Demographic characteristics such as race/ethnicity and gender are not reported due to a lack of comparable data across states. State-based surveys or registries may provide more comprehensive estimates of the ECE workforce.
