

Early Childhood Workforce Index 2016 DISTRICT OF COLUMBIA

IN THE DISTRICT OF COLUMBIA, there are 49,579 children age birth through five years, and 18 percent of all District of Columbia children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 2,250 members of the early childhood teaching workforce provide services to children in the District of Columbia.
