

# Early Childhood Workforce Index 2018 RHODE ISLAND

**IN RHODE ISLAND**, there are 65,690 children age birth to five years, and 20 percent of all Rhode Island children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages.

At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages. More than 3,820 members of the early childhood teaching workforce provide services to children in Rhode Island.

Occupation	Median wage
Child care worker	\$11.82
Preschool teacher	\$14.57
Center director	\$27.21
Kindergarten teacher	\$38.45
Elementary teacher	\$41.02
All workers	\$19.45

## Earnings by Occupation

- In 2017 the median wage for child care workers was \$11.82, **a 21% increase since 2015.**
- For preschool teachers the median wage was \$14.57, **a 10% decrease since 2015.**
- For preschool or child care center directors, the median wage was \$27.21, **a 7% decrease since 2015.**

\*Total includes the following occupations as defined by the U.S. Bureau of Labor Statistics Occupational Employment Statistics (OES): “child care workers,” “preschool teachers, excluding special education,” “preschool teachers, special education,” “education administrators: preschool/child care center programs”. These data do not include the self-employed, although home-based child care assistants, who are employees, are likely included in the “child care worker” category. Due to the limited data available across states in the OES, state-based surveys or registries may provide more comprehensive estimates of the ECE workforce.
