

Early Childhood Workforce Index 2016 IDAHO

IN IDAHO, there are 137,910 children age birth through five years; 56 percent of these children live in households where all available parents are currently working, and 40 percent of all Idaho children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 3,030 members of the early childhood teaching workforce provide services to children in Idaho.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	58th	\$21.19
Preschool teacher	9th	\$10.54
Child care worker	2nd	\$8.79

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$8.79, **a 2% decrease since 2010.**
- For preschool teachers, the median wage was \$10.54, **an 8% increase since 2010.**
