

# Early Childhood Workforce Index 2016 MINNESOTA

**IN MINNESOTA**, there are 419,084 children age birth through five years; 74 percent of these children live in households where all available parents are currently working, and 22 percent of all Minnesota children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 16,050 members of the early childhood teaching workforce provide services to children in Minnesota.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	58th	\$25.53
Preschool teacher	19th	\$15.45
Child care worker	4th	\$10.81

## Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$10.81, **a 1% increase since 2010.**
- For preschool teachers, the median wage was \$15.45, **a 3% increase since 2010.**

## Use of Public Income Supports (EITC, Medicaid, Food Stamps, TANF)

- Child care worker families' participation in one or more public income support programs: **32%**
- Cost of child care worker families' participation in public income support programs: **\$42.8 million**
