

# Early Childhood Workforce Index 2016 NEW HAMPSHIRE

**IN NEW HAMPSHIRE**, there are 78,057 children age birth through five years; 67 percent of these children live in households where all available parents are currently working, and 21 percent of all New Hampshire children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 5,350 members of the early childhood teaching workforce provide services to children in New Hampshire.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	58th	\$24.65
Preschool teacher	13th	\$13.23
Child care worker	4th	\$10.47

## Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$10.47, **a 3% increase since 2010.**
- For preschool teachers, the median wage was \$13.23, **a 2% decrease since 2010.**
