

# Early Childhood Workforce Index 2016 OREGON

**IN OREGON**, there are 276,720 children age birth through five years; 62 percent of these children live in households where all available parents are currently working, and 24 percent of all Oregon children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 10,920 members of the early childhood teaching workforce provide services to children in Oregon.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	67th	\$27.36
Preschool teacher	14th	\$13.31
Child care worker	4th	\$10.69

## Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$10.69, a **5% increase since 2010**.
- For preschool teachers, the median wage was \$13.31, a **13% increase since 2010**.
