

Early Childhood Workforce Index 2016

UTAH

IN UTAH, there are 304,416 children age birth through five years; 50 percent of these children live in households where all available parents are currently working, and 32 percent of all Utah children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 6,790 members of the early childhood teaching workforce provide services to children in Utah.

Occupation	Percentile	Median wage
Anesthesiologist	99th	≥ \$90
Kindergarten teacher	53rd	\$20.83
Preschool teacher	8th	\$11.07
Child care worker	4th	\$9.47

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$9.47, **a 3% decrease since 2010.**
- For preschool teachers, the median wage was \$11.07, **a 2% increase since 2010.**
